OBOY

University Portal — Mobile App

PRODUCT REQUIREMENTS DOCUMENT

Version 1.0
April 2026

Product	Platform	Status	Version
Oboy	iOS & Android	Active Dev	v1.0

1. Executive Summary

Oboy is a mobile-first university portal designed to unify the student experience across academics, campus events, housing, and student services. The application provides an elegant, consumer-grade interface that replaces fragmented, browser-based portals with a cohesive native-feeling mobile experience.

The product is built around four core pillars:

- Discovery — surfacing relevant courses, events, and campus resources
- Commerce — enabling enrollment, purchasing, and basket management
- Personalization — tailored content based on academic profile
- Community — connecting students to campus life and services

Product Name	Oboy
Document Type	Product Requirements Document (PRD)
Version	1.0 — Initial Release
Date	April 2026
Author	Product Team
Reviewers	Engineering, Design, University Stakeholders
Status	Active Development
Target Platforms	iOS 16+ and Android 12+

2. Product Vision & Goals

2.1 Vision Statement

To be the single, beautiful interface through which every university student discovers, enrols, purchases, and engages with everything their campus has to offer — as intuitive as a consumer app, as powerful as an enterprise portal.

2.2 Business Goals

- Increase student digital engagement by 40% within the first academic year
- Reduce time-to-enrolment friction for elective and premium courses
- Drive a 25% uplift in campus housing bookings via the in-app discovery layer
- Establish a scalable multi-university white-label platform

- Generate recurring revenue through premium course subscriptions

2.3 Success Metrics (KPIs)

Metric	Baseline	Target (6mo)	Target (12mo)
DAU / MAU Ratio	—	35%	50%
Course Enrolment Rate	—	+20%	+40%
Basket Conversion	—	18%	28%
App Store Rating	—	4.4★	4.7★
Housing Bookings via App	0	150/mo	500/mo

3. Target Users & Personas

3.1 Primary Persona — The Active Undergraduate

Name	Alex, 20
Year	2nd Year, Computer Science
Goals	Find elective courses, manage campus purchases, discover events
Pain Points	Fragmented portals, slow web-based systems, no mobile access
Tech Profile	Smartphone-primary; uses TikTok, Spotify, Revolut daily
Usage Pattern	Checks app 3-5x daily; browses during commute

3.2 Secondary Persona — The Graduate Student

Name	Priya, 25
Year	MSc Data Science, Year 1
Goals	Access premium courses, coordinate housing, manage study budget
Pain Points	Premium content hard to find; no centralised purchasing
Tech Profile	Power user; manages subscriptions and compares prices
Usage Pattern	Weekly planning sessions, deep research into course content

3.3 Administrative Persona — University Partner

Name	James, University Registrar
Goals	Promote courses, track enrolments, surface housing offers
Needs	Admin dashboard, content management, reporting
Interaction	Backend CMS; reviews PRD as key stakeholder

4. Scope — Screen Inventory

Version 1.0 comprises five primary screens plus one contextual bottom sheet overlay. All screens share a persistent bottom navigation bar and a consistent top app bar language.

Screen	Description	Key Components	Status
Home	Main landing screen; surfaces search, promotional banner, categories, and featured product grid	TopAppBar, SearchBar, HeroBanner, CategoryRow, MasonryGrid, BottomNav	**Ready**
Product Detail	Full product/course page: image, rating, seller card, size & quantity selectors, description, add-to-cart	BackNav, ProductImage, SellerCard, SizeSelector, QtyControl, PriceFooter	**Ready**
Basket	Shopping basket with 2x2 grid of items, quantity controls, coupon field, pricing summary and payment CTA	ItemGrid, QtyControl, CouponInput, PriceSummary, SecurePaymentCTA	**Ready**
Discover	Explore screen: trending courses horizontal scroll, upcoming events list with date badges	SearchInput, TrendingCarousel, EventList, DateBadge	**Ready**
Profile	Student profile card with stats, academic info, and settings menu items	AvatarCard, StatGrid, MenuList, SettingsItems	**Ready**
Filter Sheet	Bottom sheet overlay with category chips, budget range slider, sort options, and quick filter tiles	BottomSheet, CategoryChips, RangeSlider, RadioSort, QuickFilterBento	**Ready**

5. Feature Requirements

5.1 Home Screen

Feature	Description	Priority	Notes
Search Bar	Persistent search input with filter trigger button (tune icon); tapping opens Filter Sheet overlay	P0	Placeholder: 'what are you looking for?'
Hero Banner	Full-width gradient promotional card with headline, CTA button, and decorative product image	P0	Soul gradient #4E45E4 → #6760FD
Category Row	Horizontal scrollable icon row: Academics, Events, Housing, Services	P0	4 categories in v1.0; expandable
Featured Grid	Masonry 2-column grid of product/course cards with favourite toggle and add button	P0	Staggered vertical offset on even items
Favourite Toggle	Heart icon on each card; filled = saved; outline = unsaved	P1	Persisted per user account
Add to Basket	Plus button on each card adds item to basket; navigates to Detail on card tap	P0	
See All / View More	Section header CTAs link to paginated list views	P2	Phase 2 scope

5.2 Product Detail Screen

Feature	Description	Priority	Notes
Product Image	Full-width square image with favourite button overlay (top-right)	P0	Aspect ratio 1:1; rounded corners
Rating Badge	Star rating chip (e.g. 4.8) in tertiary green chip beside title	P0	
Seller Card	Horizontal card: seller avatar, name, partner status, Follow/Following CTA	P1	
Size Selector	Row of size chips (S, M, L, XL); selected state uses primary colour fill	P0	Active state: bg-primary, text-white
Qty Stepper	Minus / value / plus control; minimum 1; price updates live as quantity changes	P0	Base price $120; multiplies with qty
Description	Expandable body text section describing the product or course	P1	Truncated to 3 lines by default in v1.1

Feature	Description	Priority	Notes
Add to Cart CTA	Full-width footer button; triggers success animation then navigates to Basket	P0	Animated check icon on success
Back Navigation	Arrow-back button returns to previous screen via slide-right transition	P0	

5.3 Basket Screen

Feature	Description	Priority	Notes
Item Grid	2x2 card grid; each card: image, name, price, quantity stepper	P0	
Qty Stepper	Per-item quantity control; minimum 1, no maximum in v1.0	P0	
Delete All	Trash icon in header clears entire basket with confirmation dialog	P1	Confirmation required
Continue Shopping	CTA row returns user to Home screen	P1	
Discount Coupon	Text input with Apply button; validated against coupon API	P1	-$12.00 applied in current mock
Price Summary	Displays Discount line item and Total; updates dynamically	P0	
Secure Payment	Primary gradient full-width CTA; initiates payment flow	P0	Phase 2: payment integration

5.4 Discover Screen

Feature	Description	Priority	Notes
Search Input	Inline search bar at top; filters Trending and Events in real-time	P0	
Trending Carousel	Horizontal scroll of course cards; card: image, title, price	P0	Links to Product Detail
Event List	Vertical list of upcoming campus events; each row: date badge, title, location, time	P0	
Date Badge	Coloured square badge with day + 3-letter month; colour-coded by category	P0	Primary=career, secondary=design, tertiary=networking

Feature	Description	Priority	Notes
Notification Bell	Header icon for in-app notification centre (Phase 2)	P2	

5.5 Profile Screen

Feature	Description	Priority	Notes
Avatar Card	Circular avatar (96px), student name, degree + year, student ID badge	P0	
Stats Row	3-cell grid: Courses enrolled, Events attended, GPA	P0	
My Courses	Menu item linking to enrolled course list	P1	Phase 2
Order History	Menu item linking to Basket / past orders	P1	Links to Basket in v1.0
Housing	Menu item for housing listings	P2	Phase 2
Help & Support	Menu item for in-app help centre	P2	Phase 2
Sign Out	Destroys session and returns to auth screen	P0	
Settings Gear	Header icon for notification preferences (Phase 2)	P2	

5.6 Filter Bottom Sheet

Feature	Description	Priority	Notes
Category Chips	Toggle pill buttons: Academics (default selected), Events, Housing, Services	P0	Multi-select supported
Budget Range Slider	Single-thumb range input $0–$1000+; label shows selected range	P0	Default: $50–$450
Sort Options	Radio group: Most Popular (default), Newest First, Price: Low to High	P0	
Quick Filter Tiles	2-column bento grid: Near Me, Highly Rated image tiles	P1	Image overlay tiles
Clear All	Resets all filter state to defaults	P1	
Apply Filters	Closes sheet and applies filters to results grid	P0	

Feature	Description	Priority	Notes
Backdrop Dismiss	Tapping outside sheet closes it without applying changes	P0	

6. Navigation Architecture & Interaction Design

6.1 Navigation Structure

Oboy uses a flat tab-based navigation with a persistent bottom navigation bar across all primary screens. Contextual sub-flows (Detail, Filter Sheet) layer on top of primary screens without replacing the tab context.

Tab	Navigates To	Active Icon Style
Home	Home Screen	Filled icon, pill background #EEF4FA
Discover	Discover Screen	Filled icon, pill background #EEF4FA
Basket	Basket Screen	Filled icon, pill background #EEF4FA
Profile	Profile Screen	Filled icon, pill background #EEF4FA

6.2 Screen Transitions

- Forward navigation (e.g. Home → Detail): slide-left, 350ms, cubic-bezier(0.4, 0, 0.2, 1)
- Back navigation: slide-right, same timing
- Tab switching: cross-fade, 250ms
- Bottom sheet open: slide-up, 350ms
- Bottom sheet close: slide-down + backdrop fade

6.3 Micro-interactions

- Add to Cart button: success animation (check icon flash), 800ms, then navigates to Basket
- Favourite heart: fill animation on toggle; red for saved, outline-variant for unsaved
- Quantity stepper: scale(0.88) on press, spring-back
- Nav pill: smooth pill background expand/contract with colour transition
- Product cards: no hover states on mobile; active:scale-[0.97] press feedback

7. Design System & Visual Language

7.1 Colour Palette

Token	Hex Value	Usage
primary	#4E45E4	Brand CTA buttons, active nav, links, primary actions
primary-container	#6760FD	Gradient pair for soul-gradient, button shadows
secondary	#742FE5	Secondary accents, sort labels, secondary CTAs
tertiary	#006D4A	Success states, rating badges, green accents
surface	#F6FAFE	App background, screen base colour
surface-container-low	#EEF4FA	Search bar background, nav pill active state
surface-container	#E7EFF5	Subtle container backgrounds
on-surface	#2A343A	Primary text, headings, icon fills
on-surface-variant	#566167	Secondary text, descriptions, metadata
outline-variant	#A9B3BB	Borders, dividers, muted icons
error	#A8364B	Destructive actions, delete, required indicators

7.2 Typography

Role	Font Family	Weight / Size	Usage
Display / Brand	Plus Jakarta Sans	Black (900) / 24pt	App logo, screen hero headings
Headline	Plus Jakarta Sans	ExtraBold–Bold / 16–20pt	Section titles, card titles, CTA labels
Body	Inter	Regular–Medium / 11–14pt	Descriptions, metadata, body copy
Label / Caption	Inter	SemiBold / 9–11pt	Price tags, category labels, tags

7.3 Elevation & Depth

- Level 0 — Background: surface #F6FAFE
- Level 1 — Cards: white (#FFFFFF) + box-shadow: 0 4px 20px rgba(0,0,0,0.04)
- Level 2 — Floating elements (bottom nav): backdrop-filter blur(20px) + white/70
- Level 3 — Overlays (Filter Sheet): backdrop-filter blur + scrim rgba(10,15,18,0.4)

7.4 Border Radius Scale

- sm — 8px: small chips, quantity badges
- DEFAULT — 16px: inputs, small cards
- lg — 24px: bottom sheet, product image overlay
- xl — 32px (2rem): hero banner, masonry cards
- 3xl — 40px (2.5rem): bottom navigation bar
- full — 9999px: pills, avatar, category circles

8. Technical Requirements

8.1 Platform & Framework

Frontend Stack	HTML5 / TailwindCSS / Vanilla JS (Web) | React Native (Mobile v2)
CSS Framework	Tailwind CSS v3 with custom design token extension
Icon Library	Google Material Symbols Outlined (variable font)
Font Delivery	Google Fonts CDN — Plus Jakarta Sans + Inter
Image CDN	lh3.googleusercontent.com (prototype); Cloudinary (production)
Target Browsers	Chrome 110+, Safari 16+, Firefox 115+
Target OS	iOS 16+, Android 12+ (Chromium WebView for hybrid)
Viewport	Optimised for 390px–430px width (iPhone 14 Pro family)

8.2 Performance Requirements

- First Contentful Paint (FCP): < 1.5 seconds on 4G
- Time to Interactive (TTI): < 3 seconds on mid-range Android device
- Lighthouse Performance Score: > 85 (mobile)
- Image lazy loading on all below-the-fold content
- Bottom sheet animation: 60fps, hardware-accelerated (transform + opacity only)
- No Cumulative Layout Shift (CLS) > 0.1

8.3 Accessibility Requirements

- WCAG 2.1 Level AA compliance
- All interactive elements: minimum touch target 44x44px
- Colour contrast ratio >= 4.5:1 for body text, >= 3:1 for large text
- All images include descriptive alt text
- Screen reader support: ARIA labels on icon-only buttons
- Focus states visible for keyboard navigation (web)

8.4 State Management

- Screen navigation uses a history stack (push/pop model)
- Basket state persists across session via local storage (v1.0) / API (v1.1)
- Filter state resets between sessions unless saved
- Favourite state synced to user account when authenticated
- Quantity stepper state is local to Detail screen; committed on Add to Cart

9. Content Requirements

9.1 Home Screen Content

- Hero Banner: Promotional copy (max 8 words), sub-label, CTA label, banner image
- Categories: Icon + label pairs (Academics, Events, Housing, Services)
- Featured Grid: Min 4 items; each needs title, price/label, category tag, hero image

9.2 Product Content Schema

Field	Type	Notes
title	String	Max 40 chars; used in grid and detail screen
category	String	e.g. 'Men Footwear', 'Premium Course', 'Elective'
price	Number	'FREE' label if price = 0
rating	Float	0.0–5.0; displayed with filled star icon
images	Array	Min 1 image URL; aspect ratio 1:1 preferred
description	String	Max 280 chars for v1.0
seller_name	String	Shown on detail page seller card
seller_tag	String	e.g. 'Official Partner', 'Verified Seller'

Field	Type	Notes
sizes	Array	Optional; ['S','M','L','XL'] for physical products

10. Release Roadmap

Phase	Timeline	Scope	Status
v1.0	Q2 2026	All 5 primary screens + Filter Sheet; static data; basket state; navigation	**Active Dev**
v1.1	Q3 2026	API integration (courses, events, housing), authentication, real basket persistence	**Planned**
v1.2	Q3 2026	Payment gateway integration, coupon validation API, order history	**Planned**
v2.0	Q4 2026	React Native rewrite, push notifications, alumni networking, admin CMS	**Planned**
v2.1	Q1 2027	Multi-university support, white-label theming, partner dashboard	**Planned**

11. Open Questions & Assumptions

11.1 Open Questions

- **Will the basket support cross-category purchases (e.g. textbook + course enrolment in a single checkout)?**
  - Assumption: Yes. Single unified checkout in v1.2.
- **Is student ID verification required before course enrolment?**
  - Assumption: University SSO handles identity; Oboy consumes the token.
- **What is the coupon validation rule set? (e.g. stacking, expiry, category-specific)**
  - Assumption: Single coupon per order; validated against API in v1.2.
- **Will the Filter Sheet be reused on the Discover screen or is it Home-specific?**
  - Assumption: Shared component with context-aware label in v1.1.
- **What analytics framework is required? (Mixpanel, Amplitude, Firebase?)**
  - Not defined. Engineering to propose in v1.1 planning.

11.2 Dependencies

- University API for course catalogue, event listings, and housing data
- Authentication service (SSO / OAuth2) for student login
- Payment gateway (Stripe or equivalent) for v1.2
- Image CDN migration from prototype URLs to Cloudinary
- CMS for banner and promotional content management

12. Appendix

12.1 Priority Legend

Code	Priority	Definition
P0	Must Have	Core to v1.0 launch; blocking if absent. Non-negotiable.
P1	Should Have	High value; include if time permits in v1.0; else v1.1.
P2	Nice to Have	Future roadmap; do not block launch on these.
P3	Won't Have	Explicitly out of scope for current roadmap cycle.

12.2 Revision History

Version	Date	Author	Summary
1.0	April 2026	Product Team	Initial release — all v1.0 screens documented
